

Mornings start with FOOD (I get three meals a day!)

Then a romp with the younger brother

I love to chew bones and play with soft toys (after I've gutted them of course)

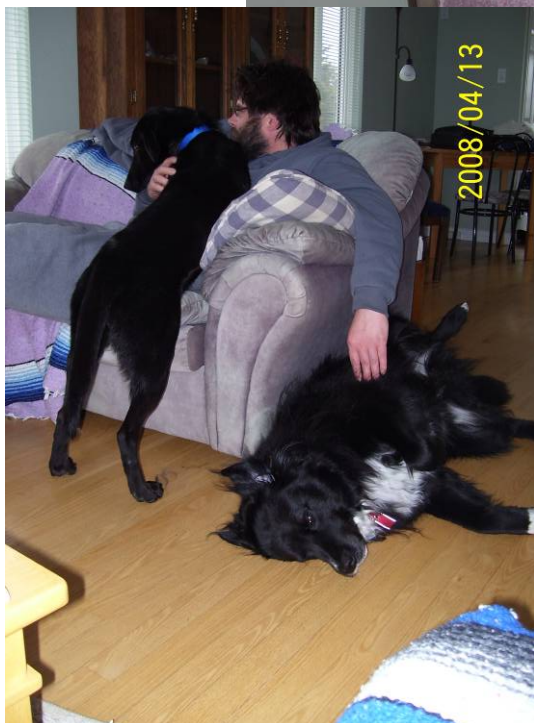

My big brother and I play and go on all sorts of adventures

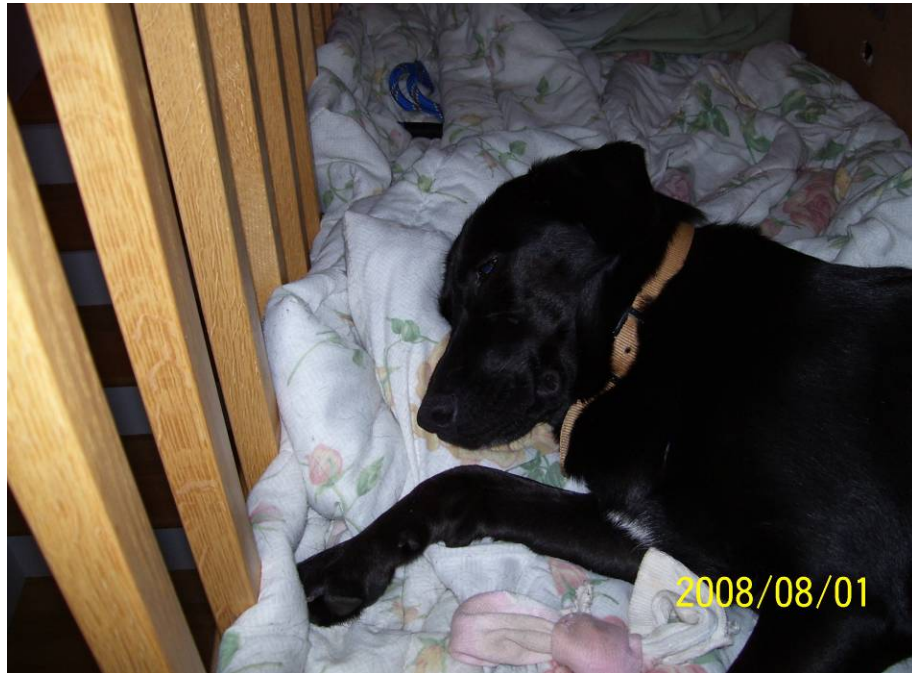

Sometimes I'm outside...

But I like inside best...

But no matter what I've done or where I've been, at the end of the day I settle down to sleep, and dream of all the things I'm going to do tomorrow....

Thanks again for all you did for me.

All my Love, Winter.
